Tata 1mg. Live Link GitHub Link

Tata 1mg Clone : Developed a healthcare e-commerce website clone that allows users to browse and search medicines, view product details, and place orders. Led the team by coordinating tasks, managing deadlines, and ensuring smooth collaboration.

Features:
Login/SignUp, Admin Side, Add to Cart

Tech Stack - HTML | CSS | JS

Travelious Live Link GitHub Link

Developed travel, tracking, scuba diving, and paragliding features with secure login/signup authentication, and deployed the application.
Tech Stack - React | Chakra UI | Redux | React-router

Soft Skill

Leadership | Adaptability | Teamwork | Time Management

Language

English | Hindi

Gautam Singh

SFMC CAMPAIGN SPECIALIST

Profile

SFMC focused email marketing professional with hands-on experience supporting Ford campaigns in Salesforce Marketing Cloud. Experienced in tactical campaign deployment, personalization, data handling, email QA, responsive rendering and market-specific campaign execution.Comfortable working with Email Studio, Content Builder, Data Extensions, CloudPages, AMPscript/SSJS concepts and campaign validation. Also bring a technical background in HTML, CSS and JavaScript.

PROFESSIONAL EXPERIENCE

WPP Production : Ford Account | SFMC Campaign Manager / Email Marketing | May 2024 – Present | DLF Cyber Park, Gurgaon

- Created and deployed EDM campaigns across multiple markets, including Australia, New Zealand, Philippines, Thailand, and Vietnam, supporting multilingual campaigns.
- Collaborated directly with market teams (AU, NZ, etc.) to understand campaign requirements and translate business needs into effective email campaigns.
- Developed responsive HTML/CSS/AMPscript email templates, landing pages, forms, personalization, and dynamic content based on campaign requirements.
- Built and managed linear and multi-step customer journeys, automated workflows, audience segmentation, and end-to-end campaign execution.
- Performed email QA, cross-client rendering, and troubleshooting using Litmus and Testi@ across Outlook, Gmail, Apple Mail, and mobile devices.
- Monitored campaign performance and prepared analytical reports and campaign insights for stakeholders.
- Collaborated with QA, design, marketing, and technical teams to ensure accurate, high-quality, and timely campaign delivery.
- Worked with marketing and productivity tools including Adobe Campaign, AEM, Veeva Vault, Photoshop, Dreamweaver, Jira, and Miro.

SELECTED SFMC PROJECTS

Ford Dealership Lead Generation: HTML | CSS | JavaScript |CloudPages | AMPscript | Data Extensions | Journey Builder

• Built a live dealership website where customers can Request a Quote or Book a Test Drive and are redirected to an SFMC CloudPage form.
• Captured customer details such as name, selected vehicle, contact information, and inquiry type into a Data Extension.
• Implemented an instant triggered EDM using AMPscript to personalize emails with the customer's name, selected vehicle, and submitted details.
• Integrated CloudPages, Data Extensions, AMPscript, and triggered communications to create an end-to-end lead-generation flow.
